Thank you all for the very helpful discussion today about BDCP purpose and need. In reviewing my files I found the attached undated 2-pager. Is this by any chance what was referred to in our call as the "March-April federal agreement?" Or is there some other document reflecting that agreement? The attached document appears to me to be totally consistent with the October 2010 letter that the three lead Federal agencies sent to EPA re: BDCP purpose and need. Anything you can provide me to clarify what the agreement was and/or what the Corps' concerns are would be most helpful. Thanks a lot,

Letty
